Are you interested in leading an innovative team at the forefront of developing and implementing appliance efficiency compliance policies? Do you want to work on implementing model programs emulated around the globe that deal with the greatest energy, environmental and economic issues of our time? Are you ready to make a difference in the world? Then this may be just the job for you!

DUTIES/RESPONSIBILITIES:

The Efficiency and Renewable Energy Division's Appliance Office is recruiting for an Energy Commission Specialist II (EFF) to serve as the prime resource compliance program lead and primary resource for all appliance efficiency compliance matters, particularly those which are the most sensitive and complex due to rapid technology development; supply chain and legal issues. The incumbent will provide expert guidance in regard to technical and regulatory issues involved with ensuring industry compliance with the Appliance Efficiency Regulations and provide guidance and assistance to staff assigned to certification, outreach, and enforcement activities. The incumbent will evaluate proposed state and federal regulations to identify compliance concerns and recommend solutions to standards development team members and management. These responsibilities are essential in achieving California's goals to reduce plug load statewide through appliance energy efficiency activities.

DESIRABLE EXPERIENCE/QUALIFICATIONS: A successful applicant will have:

- ☐ knowledge of the Appliance Energy Efficiency Standards;
- ☐ demonstrated ability to use a variety of analytical and research techniques to evaluate and quantify the effect of appliance efficiency measures, resolve complex appliance efficiency problems, develop and evaluate alternatives, perform policy analysis, formulate policy recommendations, and analyze energy data;
- ☐ experience as a contract and project manager;
